Frankfurt am Main, open to relocation | +49 (0) 152 28072929 | mujtabaali.bhutto@live.com | LinkedIn

Investment analyst with institutional investment experience, including private-markets portfolio monitoring and fund and co-investment due diligence at Allianz Investment Management. Experienced in financial and valuation modelling, manager research, portfolio analytics, and translating complex financial data into investment recommendations. CFA Level III candidate.

EXPERIENCE

Allianz Investment Management SE

Private Markets Analyst, Intern to Working Student

Stuttgart, Germany

Jul 2025 - Aug 2026

- Analysed a EUR 230m climate-focused private-markets portfolio across 17 funds and 7 co-investments, evaluating performance, NAV and valuation developments, cash flows, deployment, new investments and exits, and portfolio exposures against original investment plans.
- Contributed to fund and co-investment due diligence, reviewing manager materials, track records, historical performance, portfolio construction, valuation considerations and key investment risks for investment reviews and recommendations.
- Reviewed GP reports, valuations and portfolio data for investment reviews and team materials, identifying issues requiring follow-up; flagged a NAV inconsistency that led to a revision and a co-investment classification issue that understated historical performance.
- Built an end-to-end Power BI portfolio-monitoring and reporting workflow, using AI-assisted processing to structure GP reports, calculate portfolio metrics and NAV deviations, and standardise reporting inputs, reducing quarterly reporting preparation from several days to approximately two hours.

Centre for European Transformation, Frankfurt School

Research Assistant

Frankfurt, Germany

Dec 2024 - Apr 2025

- Conducted quantitative research on the funding structures of 62 US private-credit firms, combining Capital IQ and Compustat data in Stata; identified increased funding diversification and a shift from revolving credit toward senior bonds.
- Researched European productivity, infrastructure finance and sovereign risk using OECD data and EC, EIB and IMF sources; produced comparative analyses and visualisations used in CEFT commentary on Germany's productivity and infrastructure-investment needs.

State Bank of Pakistan (Central Bank)

Investment Analyst, International Markets & Investments Department

Karachi, Pakistan

Dec 2020 - Aug 2024

- Developed Investment Committee analysis across USD 10bn internally and USD 2bn externally managed portfolios, covering performance attribution, benchmark-relative returns, portfolio positioning, composition, liquidity and risk to support senior investment reviews and allocation decisions.
- Monitored external investment managers across performance, benchmark-relative returns, mandate compliance and portfolio positioning, identifying performance gaps and escalating relevant issues for senior investment review.
- Recommended repositioning an internally managed fixed-income portfolio toward shorter duration ahead of a monetary tightening cycle based on macroeconomic, market and scenario analysis; recommendation was adopted within the approved investment framework.
- Coordinated the phased liquidation of approximately USD 2bn of externally managed portfolios during acute FX liquidity pressure, working across asset managers, custodians, treasury operations and senior management on execution, settlement, liquidity requirements and reporting.

EDUCATION

Frankfurt School of Finance & Management

M.Sc. Finance; Grade: 1.7; Deutschlandstipendium Scholarship

Frankfurt, Germany

Aug 2024 - Aug 2026

Luxembourg School of Business

Exchange Semester, International Finance
